ABOUT ME

I am a 22 year old English Language and Literature student interested in software development. My entry to software development began with taking online courses on Python and building small projects with it, using various libraries. After I worked as a front-end developer intern, I have since then been mainly working on front-end projects.

EXPERIENCES

OCT 2021 - NOV 2021 FRONTEND DEVELOPER INTERN

1PIXEL DIGITAL AGENCY Coding functional and responsive sections of pages that correspond to their respective graphical designs, which were provided as issues in Jira Agile development environment.

Integrating created page sections into Shopify themes to provide customizable and ease to use controls to merchants. In addition to integrating these sections to themes, fetching dynamic store data into page elements using Shopify Liquid templating language.
