## ABOUT ME

I am a 24 year old English Language and Literature graduate interested in software development. My entry to software development began with taking online courses on Python and building small projects with it. After I worked as a front-end developer intern, I have been primarily focusing on web development. I am currently working at Etstur as a software development assistant.

## EXPERIENCES

JUL 25, 2022 - PRESENT

Etstur

### SOFTWARE DEVELOPMENT ASSISTANT

Partaking in the Front-end transitional rewrite of Etstur's B2B hotel management application which was written on Java and FTL, and will transition into a React / Java Spring Boot stack.

Taking the lead Front-end developer role for Etstur's new contract management application from its inception to its production stages, making it the first ever project to be fully written in React to reach production stage at Etstur. Then, assisting the new team assigned to the project after the production stage with hand-over and maintenance.

OCT 2021 - NOV 2021

1Pixel Digital Agency

### FRONT-END DEVELOPER INTERN

Coding functional and responsive sections of pages in HTML based on provided page designs, integrating these sections into Shopify themes to provide customizable components to merchants, and integrating dynamic store data into page elements using Shopify Liquid templating language.

MAY 2020 - AUG 2021

Freelancer.com
